Where

- Ps = Points scored for price of the quotation or bid under consideration
 Pt = Price of the quotation or bid under consideration
 Pmax = Price of highest acceptable quotation or bid

4. GPAA SPECIFIC GOALS

- 4.1 The points awarded for price will be added to the points for Specific Goals.
- 4.2 THE GPAA Specific Goals that apply to bids above R1m (or in the event of panels, all quotations above R1m) include:
 - 4.2.1 Ownership (South African Black African, Coloured, Indian/Asian); and
 - 4.2.2 One or more of the following:
 - 4.2.2.1 Enterprises based in the locality where the goods and service are needed;
 - 4.2.2.2 Women-owned enterprises;
 - 4.2.2.3 Disabled-owned enterprises; or
 - 4.2.2.4 Youth-owned enterprises.

5. POINTS AWARDED FOR SPECIFIC GOALS FOR THIS BID

5.1 The following Specific Goals and points apply to this bid:

Note: Points out of 20/10 will proportionally be allocated for the specific goal applicable to this bid.

Specific Goals in terms of PPR2022 and Weighting (A (if applicable))	Points out of 20 for the 80/20 system (B1)	Points out of 10 for the 90/10 system (B2)	% Ownership To be completed by the bidder (C)	Points Claimed 80/20 To be completed by bidder (A x B1 x C =)	Points Claimed 90/10 To be completed by bidder (A x B2 x C =)
See example in 5.3.1 below					
% African ownership (100% of max points)	10 max	5 max	%		
% Coloured ownership (80% of max points)			%		
% Indian ownership (50% of max points)			%		
% women owned	5 max	3 max	%		
% disabled owned	__ max	__ max	%		
% youth owned	5 max	2 max	%		
Enterprises based in the locality where the goods and service are needed	__ max	__ max			
TOTAL:	20	10			

N/A = Not applicable

5.2 Where reference is made to Locality, the following location and points apply:

	Desired Location (if applicable)
Municipality:

5.3 Points claimed calculations:

5.3.1 **Ownership.** The points claimed will be calculated by multiplying the race weighting % by the maximum points for that goal by the % ownership by the race. For example a 70% African owned enterprise will score a 100% x 70% x 10 max points = 7 points. If 30% of the enterprise is owned by coloured people, then an additional 80% x 30% x 10 max points = 2.4 points, i.e. a total of 9.4 points for ownership.

5.3.1.1 Note that if GPAA requests proof of ownership, and the proof can either not be provided OR if the proof is dated after the declaration date, this will be deemed to be misrepresentation and GPAA will begin the remedy outlined below.

5.3.2 **Locality.** The points claimed for locality will be the maximum points if the bidder declares that they have Proof of Locality at the time of the declaration. If no proof of locality for the location described exists, then zero points must be claimed.

5.3.2.1 Note that if GPAA requests proof of location, and the proof can either not be provided OR if the proof is dated after the declaration date, this will be deemed to be misrepresentation and GPAA will begin the remedy outlined below.

6. SUBCONTRACTING

6.1 Subcontracting will be treated as condition of contract and not a condition of tender. The implication of this is that points will not be allocated to companies that submit a proposal with subcontracting where this was not requested.

6.1.1 Where subcontracting has been included as a condition of contract, all bidders will be assumed to agree with the condition of contract and so there will be no additional advantage for scoring points (note the fronting statement that follows).

6.2 Should a bidder voluntarily submit a proposal that subcontracts more than 25% of the work to designated groups, the bid may come under further scrutiny for signs of fronting. Bidders are encouraged to understand the fronting indicators as described on the Department of Trade, Industry and Competition website.

7. SUBMISSIONS BY CONSORTIUMS AND JOINT VENTURES

7.1 If a submission is made by a consortium or Joint Venture, the points claimed for ownership must be detailed separately on an attachment showing the following:

7.2 The percentage (%) of the contract allocated to each JV member or consortium member. This should also be included in an agreement to be made available on request by GPAA.

7.3 The percentage ownership by race category of each JV member or consortium member in each of the specific goals relevant to this bid.

7.4 The total points claimed will be the sum of the percentage contract allocation for each partner multiplied by the percentage weighting for the race category, multiplied by the percentage

ownership in the relevant specific goal.

- 7.4.1 An example of the point calculation for JVs or consortiums can be requested of GPAA if required.
- 7.5 For small enterprises, the full points can only be claimed if all consortium members or the joint venture partners are either EMEs or QSEs (as permitted by the codes of good practice).
- 7.5.1 The points claimed for small enterprises is calculated proportional to the number of members/partners that are either EMEs or QSEs. If 2 of 3 of the consortium members (i.e., 66.67%) are either EME or QSE, then the points claimed will be 66.67% of the maximum points for small enterprises. For simplicity, points claimed for small enterprises will not be dependent on the percentage of the contract allocated to each JV member or consortium member.
- 7.6 For locality, full points can only be claimed if all consortium members or the joint venture partners are located in the specified area.
- 7.6.1 The points claimed for locality is calculated proportional to the number of members/partners located in the specified area. If 3 of 5 of the consortium members (i.e., 60%) have their businesses in the specified locality, then the points claimed will be 60% of the maximum points for locality. For simplicity, points claimed for locality will not be dependent on the percentage of the contract allocated to each JV member or consortium member.

Note: 1) A conflict of interest may arise due to a conflict of roles which might provide an incentive for improper acts in some circumstances. A conflict of interest can create an appearance of impropriety that can undermine confidence in the ability of that person to act properly in his or her position even if no improper acts result.

2) Conflicts of interest in respect of those engaged in the procurement process include direct, indirect or family interests in the tender or outcome of the procurement process and any personal bias, inclination, obligation, allegiance or loyalty which would in any way affect any decisions taken.

The GPAA shall not be liable for any losses, claims or damages of whatsoever nature or howsoever arising which may be sustained by a tenderer or any other person as a result of its participation or any amendment, termination or suspension of the process set out in this Invitation to Tender or its exclusion from participating in the tender process at any point.

3.1.1 Unless otherwise stated in the tender documents, respond to a request for clarification received on or before the deadline for clarification questions stated in the Tender documents and publish responses to bidders' questions on the GPAA website.

3.1.2 Consider any request to make a material change in the capabilities or formation of the tendering entity (or both) or any other criteria which formed part of the qualifying requirements used to prequalify a tenderer to submit a tender offer in terms of a previous procurement process and deny any such request if as a consequence:

- a) an individual firm, or a joint venture as a whole, or any individual member of the joint venture fails to meet any of the collective or individual qualifying requirements;
- d) the new partners to a joint venture were not prequalified in the first instance, either as individual firms or as another joint venture; or
- e) in the opinion of the GPAA, acceptance of the material change would compromise the outcome of the prequalification process.

3.2 Issue addenda

If necessary, issue addenda that may amend or amplify the tender documents to each tenderer during the period from the date that tender documents are available until ten days before the tender closing time stated in the Tender documents. If, as a result a tenderer applies for an extension to the closing time stated in the Tender documents, the GPAA may grant such extension and, shall then publish the notice of closing time extension on the GPAA website and other media where the tender was advertised.

3.5 Non-disclosure

Not disclose to tenderers, or to any other person not officially concerned with such processes, information relating to the evaluation and comparison of tender offers, the final evaluation price and recommendations for the award of a contract, until after the award of the contract to the successful tenderer.

3.6 Grounds for rejection and disqualification

Determine whether there has been any effort by a tenderer to influence the processing of tender offers and instantly disqualify a tenderer (and his/her tender offer) if it is established that the tenderer engaged in corrupt or fraudulent practices or an effort by the tenderer to influence the tender process.

3.7 Test for acceptable tender

3.7.1 Determine before detailed evaluation, whether each tender offer properly received:

- complies with the requirements of these Conditions of Tender,
- has been properly and fully completed and signed, and
- complies with the requirements of the tender documents.

3.7.2 An acceptable tender is one that conforms to all the terms, conditions, and specifications of the tender documents without material deviation or qualification. A material deviation or qualification is one which, in the GPAA's opinion, would:

- detrimentally affect the scope, quality, or performance of the works, services or supply identified in the Scope of Work,
- significantly change the GPAA's or the tenderer's risks and responsibilities under the contract, or
- affect the competitive position of other tenderers presenting acceptable tenders, if it were to be rectified.

3.7.3 Reject an unacceptable tender offer, and not allow it to be subsequently made acceptable by correction or withdrawal of the non-conforming deviation or reservation.

3.8 Arithmetical errors, omissions and discrepancies

3.8.1 Check the highest ranked tender or tenderer with the highest number of tender evaluation points after the evaluation of tender offers in accordance with 3.11 for:

- the gross misplacement of the decimal point in any unit rate;
- omissions made in completing the pricing schedule or bills of quantities; or
- arithmetic errors in:

- line item totals resulting from the product of a unit rate and a quantity in bills of quantities or schedules of prices; or
- the summation of the prices.

3.8.2 The GPAA must correct the arithmetical errors in the following manner:

- Where there is a discrepancy between the amounts in words and amounts in figures, the amount in words shall govern.
- If bills of quantities or pricing schedules apply and there is an error in the line item total resulting from the product or service of the unit rate and the quantity, the line item total shall govern and the unit rate shall be corrected. Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as quoted shall govern, and the unit rate shall be corrected.
- Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer's addition of prices, the total of the prices shall govern and the tenderer will be asked to revise selected item prices (and their rates if bills of quantities or pricing schedules apply) to achieve the tendered total of the prices.

3.8.3 Consider the rejection of a tender offer if the tenderer does not correct or accept the correction of the arithmetical error in the manner described above.

3.8.4 Where the GPAA provided the pricing schedule in an Excel spreadsheet format with the GPAA created formulae and one or more of the formulae is incorrect, then:

- The GPAA will correct the formulae and request the bidder to certify the correction(s); and
- Section 3.8.1 and 3.8.2 will not apply.

3.9 Specific Goals

3.9.1 Check the highest ranked tender or tenderer with the highest number of points in accordance with 3.11 for:

- Claims made in respect of specific goals;
- Errors in calculating or determining points for specific goals.

3.9.2 Where GPAA determines that the points for specific goals were incorrectly claimed, the GPAA may:

- Clarify with the tenderer the basis for their claim; and
- Initiate the appropriate steps to restrict the tenderer, should the GPAA believe the tenderer has misrepresented themselves.

3.10 Clarification of a tender offer

Obtain clarification from a tenderer on any matter that could give rise to ambiguity in a contract arising from the tender offer if the GPAA believes the tenderer has misrepresented themselves.

3.11 Evaluation of tender offers

3.11.1 General

Reduce each acceptable tender offer to a comparative offer and evaluate them using the tender evaluation methods and associated evaluation criteria that are specified in the tender document. The evaluation method for this tender is described in the specification document.

3.11.2 Method 1: Price and Preference

In the case of a price and preference:

- 1) Score points for price
- 2) Score points for specific goals as per Preferential Procurement Regulations, 2022
- 3) Add the points scored for price and specific goals.

3.11.3 Method 2: Functionality, Price and Preference

In the case of a functionality, price and preference:

- 1) Score functionality, rejecting all tender offers that fail to achieve the minimum number of points for functionality as stated in the Tender documents.
- 2) No tender must be regarded as an acceptable tender if it fails to achieve the minimum qualifying score for functionality as indicated in the tender invitation.
- 3) Tenders that have achieved the minimum qualification score for functionality must be evaluated further in terms of the preference points system prescribed in paragraphs 4 and 5 below.

The 80/20 preference point system for acquisition of services, works or goods up to a Rand value of R50 million

- 4)(a) The following formula must be used to calculate the points out of 80 for price in respect of tenders of an invitation for tender with a rand value equal or below R 50 million, inclusive of all applicable taxes:

$$P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

P_s = Points scored for comparative price of tender or offer under consideration;
P_t = Comparative price of tender or offer under consideration; and
P_{min} = Comparative price of lowest acceptable tender or offer.

- 4)(b) A maximum of 20 points may be awarded to a tenderer for the specific goal specified for the tender.
- 4)(c) The points scored for the specific goal must be added to the points scored for price and the total must be rounded off to the nearest two decimal places.
- 4)(d) Subject to section 2(1)(f) of the Preferential Procurement Policy Framework Act, 2001 the contract must be awarded to the tenderer who scores the highest total number of points.

The 90/10 preference point system for acquisition of services, works or goods with a Rand value above R50 million

- 5)(a) The following formula must be used to calculate the points out of 90 for price in respect of tenders of an invitation for tender with a rand value above R 50 million, inclusive of all applicable taxes:

$$P_s = 90 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

P_s = Points scored for comparative price of tender or offer under consideration;

P_t = Comparative price of tender or offer under consideration; and

P_{min} = Comparative price of lowest acceptable tender or offer.

- 5)(b) A maximum of 10 points may be awarded to a tenderer for the specific goal specified for the tender.
- 5)(c) The points scored for the specific goal must be added to the points scored for price and the total must be rounded off to the nearest two decimal places.
- 5)(d) Subject to section 2(1)(f) of the Preferential Procurement Framework Act, 2001 the contract must be awarded to the tenderer scoring the highest total number of points.

3.11.4 Method 3: Any other evaluation method described in the tender document.

The GPAA may also decide on any other evaluation method described in the tender document.

3.12 Acceptance of tender offer

3.13.1 If necessary, revise documents that shall form part of the contract and that were issued by the GPAA as part of the tender documents to take account of:

- a) addenda issued during the tender period,

- b) inclusion of some of the returnable documents, and
- c) other revisions agreed between GPAA and the successful tenderer.

3.14 Publication of successful tenderer

- 3.14.1. Notify the successful tenderer of the GPAA's acceptance of his tender offer by sending an award letter to the successful tenderer before the expiry of the validity period stated in the tender documents, or agreed additional period.
- 3.14.2. After the successful tenderer has been notified of the GPAA's acceptance of the tender, publish the award details in the media that the tender was initially published in.

3.15 Provide copies of the contracts

Provide to the successful tenderer the number of copies stated in the Tender documents of the signed copy of the contract as soon as possible after completion and signing of the form of offer and acceptance.

3.16 Provide written reasons for actions taken

Provide upon written request written reasons to tenderers for any action that is taken in applying these conditions of tender, but withhold information which is not in the public interest to be divulged, which is considered to prejudice the legitimate commercial interests of tenderers or might prejudice fair competition between tenderers.
